UX Researcher & Product Researcher with 5+ years of mixed-methods experience driving user trust, retention, and loyalty across AI products, telecom services, and B2B SaaS. Translates behavioral data into product strategy, technical requirements, and UX frameworks for new and evolving features. Integrates qualitative insights with quantitative models via Python, R, and SQL to scale research, automate workflows, and align cross-functional teams around mental models.

PROFESSIONAL EXPERIENCE

UX Researcher, User Retention & Brand-Value Conflict

Aug 2024 – Aug 2026

University of Michigan, Stephen M. Ross School of Business

- Identified functional reliability as primary driver of user retention in high-friction interactions by leading 5 multi-phase studies (N=2,507) across surveys and experiments, informing service design and product prioritization.
- Quantified "Reluctant Loyalty" behaviors and increased user retention to 73% through targeted design decisions and long-term growth benchmarking.
- Delivered insights to 300+ stakeholders via creative storytelling, interactive workshops, and data visualization to directly influence multi-year product roadmap.

UX Researcher, Digital Wellbeing & Transparency

Aug 2023 – Aug 2026

University of Michigan, Stephen M. Ross School of Business

- Directed 6 multi-phase studies (N=1,419; 20,000+ observations) using experiments and surveys with Midjourney-generated stimuli to map mental models and identify drivers of user trust and value in AI-powered features.
- Built research infrastructure using R and Python to synthesize product analytics with behavioral data, converting user needs into UI flows and design standards within Figma to expedite prototyping phase.
- Translated behavioral insights into standardized UX frameworks and documentation, preventing redundant engineering cycles and securing alignment from 200+ stakeholders across Product, Design, and Engineering teams.

UX Researcher, Emerging Tech Adoption & Perception

Jan 2022 – Dec 2022

University of Illinois at Urbana-Champaign (Client: Publicis Groupe)

- Diagnosed adoption barriers and UX gaps for emerging digital assets across 100+ global brands by conducting in-depth interviews (N=13) and B2B product analysis, informing client and feature strategy.
- Synthesized qualitative data in NVivo to build standardized research toolkits, participant management workflows, and knowledge management systems, scaling research operations across global Design and Engineering teams.
- Delivered research insights to 1,500+ stakeholders across global teams, aligning leadership and defining success metrics to inform product strategy and global growth roadmaps.

UX Researcher, Customer Satisfaction & Service Design

Jan 2019 – May 2019

School of Management Tribhuvan University (Client: Nepal Telecom)

- Proved that network reliability accounted for 77% of customer loyalty using quantitative studies (N=100), securing enterprise alignment on strategy to prioritize core growth engines and resource allocation.
- Secured executive buy-in for nationwide pricing restructure and monetization strategy through quantitative user research, aligning cross-disciplinary partners on core growth metrics.
- Translated behavioral data into scalable UX frameworks and localized service standards, resolving user workflow bottlenecks across Product, Marketing, and Engineering teams.

SKILLS

Research Methods: Mixed-Methods, Surveys, A/B Testing, In-Depth Interviews, Usability Testing, Journey Mapping, Diary Studies, Card Sorting, Focus Groups, Experimental Design

Data Analytics: R, Python, SPSS, SQL, Tableau, Causal Inference, Predictive Modeling

Tools & Infrastructure: Qualtrics, NVivo, Figma, Adobe Photoshop, Excel, PowerPoint, Claude Code, Codex
